

# Register

After IWIN software is installed, and when you have to login for the 1<sup>st</sup> time, you need to register and enter the following details:

Broker URL: <http://119.160.196.236/iwin/Brokersettings.aspx>

Broker code : 12345

# Login

You need to enter the user id and password that is provided by the company in your email id.

# Change Password

While login for the first time and after every 14 days, you need to change password. The new password should be of minimum 8 and maximum 12 characters with combination of alphabets and numbers.

# Create Profile

To create your own profile you need to select “Profile” logo.  
Give a name to the profile and select add option.

# Insert Scrip

To insert new scrip in the profile you should select the add scrip option from the list. Symbol Lookup screen will open. You should select Exchange, Instrument, write the scrip symbol in the symbol box and press select option. A list of relevant scrip opens. Select the scrip you want to add.

# Open Market Watch

After you login successfully, a main menu screen opens. You need to select “Market” logo to open market watch.

# Best Five

When you login and open the market watch, a default option of “Best Five” appears on the Right side of the screen. When you select a particular scrip in the market watch and click the right button of the mobile the best five screen opens.

# Contract Information

If you want the information of any particular scrip, you should press the left button of the mobile. A list opens from which select “Scrip Info” option.

# Snapshot

If you want the price of any particular scrip without downloading it in the market watch, you should press the left button of the mobile. A list opens from which select “Snapshot” option.

# Buy / Sell Order

You need to select a particular scrip, click the left button of mobile and select “Buy / Sell Order” to place the order. You need to select the options from Order Type, Product Type, Validity, etc. then click next. A new screen opens in which you need to fill the quantity and price for the trade.

# Confirm Order

Once you place the order, an “Order Confirmation” screen opens. If you selects Submit option the order will be finally placed.

# Order Book

If you want to view all the orders placed by you on a particular day, go to the main Menu. Select the “Order book” option.

# Trade Book

If you want to view all the trades executed by you on a particular day, go to the main Menu. Select the “Trade book” option.
